Barij Essence Pharmaceutical Co

Barij Essence History

Barij Essence Pharmaceutical Company has always had an active cooperation with research centers and universities. This company's main focus is to make use of the Iranian raw material and to make progress in breeding Iranian herbal plants and Traditional Medicine to grow domestic production and reduce unemployment.

Hossein Hejazi the founder of Barij Essence Pharmaceutical Company was always concerned about the society, especially the environmental and humanitarian issues. He also was active in building mosques and schools and offered private scholarships and funds for the students and individuals who was in financial difficulties or was experiencing health problems. Sports and health was another main concern of Hossein Hejazi and he established the Barij Essence Sport Club in 2005.

Unfortunately, Hossein Hejazi died in June 2010 and buried in the sacred mosque of Mashhad Ardehal next to the tomb of Sohrab Sepehri who was his favorite poem writer.
