

## A Brief Introduction for Panter

Panter Knowledge Based and Nanotechnology Entrepreneurship Group started its activity in 2012 with a focus on publication and supplying stationery to realize the dream of producing and supplying high-quality Iranian products at the global standard level. In this way, the use of innovations and advanced technologies to respond to the demands of Panter's perfectionist consumers, cooperation with national and international organizations and institutions, using up-to-date and efficient equipment, as well as having an agile, brave and clever team with "Scientific knowledge" and "Tacit knowledge" has led to the production of unique quality products such as gouache, nano white glue, finger paint, motion sand, antibacterial pens, etc.

Panter's efforts to ensure the quality and health of products led to the establishment of Panter's specialized laboratory as a partner of the National Standard Organization under T/3916. Also, Panter team by using advanced production lines, scientific and integrated outsourcing management and using multinational nature in the supply chain and as the first holder of the research and development license in Iran's stationery industry under No. 264426/60 from the Ministry of Industry, Mine and Trade and as a top research & development unit in Tehran Province and selected as the exemplary industrial unit of Tehran in 2023 tries to provide the appropriate acceleration in order to meet the needs and demands of the stakeholders in the world class.

Currently, Aalineshan Parsian Co. with the brand name "Panter" includes 6 affiliated groups (stationery, publications, kids, business school, chemical and petrochemical and specialized laboratory).
